INSTITUTE.

ONSULTATION, IN ALL CASES, FREE

URES GUARANTEED, OR NO PAY REQUIRED.

N ALL CASES WHERE CONFIDENCE IS REQUIRED THE UTMOST SECRESY MAINTAINED.

The above rules, established Dr. J. C. Young in 1850, which have done so much to establish the reputation of this Institute, are still adhered to, offering those in need of Medical aid, the certainty of cure and the utmost confidence. There is nothing of so great importance to the sick as to know where to find a physician of whose skill and humanity they have assurance of proper and scientific treatment. The Doctor would respectfully call the attention of those of both sexes who are suffering or in trouble to his invariable success that has attended the career of the Institute in the seventeen years of its existence.

It is unnecessary in this connection to enumerate all the diseases treated at the Institute, but the Doctor feels it necessary to call especial attention to that terrible scourge, SEMINAL WEAKNESS, which is sapping with its insidious hand at the very life of its victim, and which the treatment and remedies which the Institute has at command, so enviable a reputa

THE EARTHQUAKES

The Calamity in Ecuador

OVER FORTY THOUSAND LIVES LOST BUILDINGS SWALLOWED UP—INDIANS RESCUING AMIDST THE WHITES—CORPSES FLOATING IN THE RIVERS—MIRAGE—THE SCENE—HEAVY RAINS.

[Correspondence of the New York Herald.]

ASPINWALL Sept 30—10 P M

The Pacific Steam Navigation Company's steamer *Meteor* arrived at Panama yesterday from Guayaquil and intermediate ports. The news which she brings is important only in so far as it is more than confirmatory of the harrowing reports already sent to the *Herald* of the frightful destruction of life and property in the neighboring republic of Ecuador by the earthquakes of the 15th of August last. The loss of life here reported differs in figures, but is equally appalling. The lowest estimate of the number of human beings who perished on that fatal occasion is 25,000, while the highest estimate of the number of human beings who perished on that fatal occasion is 50,000 to 60,000 which second is exaggerated. A new statement will be over 50,000. It seems impossible to make a correct estimate of the number of human beings who perished on that fatal occasion.

The sad catastrophe occurring in the night swallowed up whole *pueblos* with their slumbering populations, filled the towns in a mass of shapeless ruins with their inhabitants buried beneath and not a soul left to assist in extricating the crushed and mangled mortals buried in this debris, but in whom life was not extinct. The heartless Indians of the neighborhood coldly looked on the scene of ruin and suffering but refused to assist in saving the few in whom life still existed and it was necessary to call the troops to compel their assistance.

Of Cotacachi a place of over 65,000 inhabitants, Ibarra, with 15,000, and Otavalo of 10,000—three of the largest cities in the north of Ecuador—literally nothing is left but ruins and of the 90,000 human beings who peopled these places it is feared over two thirds have perished. Besides these large cities, hardly a town or village in the northern part of the republic had escaped. The damage sustained by the city of Quito, as I have heretofore stated is slight in comparison to that of other cities in the north. Most of the churches convents and large public buildings are destroyed. It is stated by a Guayaquil paper that a large number of dead bodies have floated down the river Mira from the affected districts toward the Pacific, and that the remains of over forty human beings have been taken from the streams and interred.

Heavy rains are reported from the interior of the republic.

DESCRIPTION OF THE CHIEF PLACES DESTROYED AUGUST 16—ACCOUNT OF THE VOLCANOES OF CHACACHI, IMBABURA AND ASTH—INTERESTING DATA.

The principal cities in Ecuador destroyed Aug 16 were Ibarra, Otavalo, and Cotacachi all in the province of Imbabura. The first was the capital of the province.

IBARRA

is twenty one leagues from Quito, on a beautiful plateau 2,219 metres above the sea. It was founded in 1606 by Don Miguel de Ibarra President of the Quito Council of Audience. Its streets were broad and straight, the houses commodious built of brick or adobes, thatched and some were two stories in hight. Its principal edifices were Parish church, the Jesuits' College the churches and convents of St Dominic, La Merced, St Augustin St Francis, the monastery of the Conception the government house and the hospital. It had, besides, a beautiful cemetery. In 1858 Ibarra contained 13 000 people. The estimated population this year amounted to about 16,000, of whom about 13,000 lost their lives.

OTAVALO

lay east of Ibarra, in a plain between the Hotan and St Sebastian rivulets. It had a considerable number of sewers, and was very clean. Otavalo was 3 047 meters above the sea. It was founded by the Spaniards in 1544 on the site of a town found there at the Conquest. It was built like Ibarra. The site of the city was highly picturesque owing to the beautiful private gardens which were bordered with mulberry trees, ever green. It also had a number of fine public buildings. In 1858 the population amounted to 8,000 this year it must have numbered 10 000 of whom about 7 000 have perished.

COTACACHI,

north of Otavalo, was a city of considerable size, built like the above. The majority of the inhabitants were Indians of pure white skin well and handsomely formed. The women were unusually handsome. In 1867 the three cantons surrounding the above cities, contained 85 561 people, and of these it is calculated that about 43 000 were killed. The province of Imbabura was regarded as the most fertile of the republic. It produced cotton sugar cane, oranges, lemons, granadas, plantains the granadilla (a fruit unknown in Europe or North America) and several others. The merino was raised there, and its cattle pastures were excellent. There were two large cotton factories moved by water power.

The following is a sketch of the volcanoes supposed to have caused the convulsion.

MOUNT COTACACHI

is on the west side of the Andes range. It is almost conical in shape, is covered all the year round with the purest snow. Its height is 5 955 metres above the sea. On the southeast slope is a lake called Cuycocha, which appears to mark the place where another summit caved in leaving the peak visible in the middle of the lake similar to an island. It is situated sixteen miles south west of Ibarra.

MOUNT IMBABURA

arises alone out of a plain and is separate from both spurs of the Andes. Its shape is irregular and its top is not always snow clad. Its name means black fish pond, because when an eruption of water takes place from this mountain, large quantities of little black fish are found in the water. The general opinion is, that these fish grew in some internal pond, for all the little streams that flow from the sides of the mountain are filled with them. Several great eruptions of water have taken place, but none of them did any harm. Its height is 5 700 metres above the sea and its situation nine miles south southeast of Ibarra.

MOUNT PASTO

The eastern spur of the Tulcan in the province of Pasto, is 3,840 metres above the sea. From this spur extend other clusters, shaped like stirrups, along toward the desert of Moceon. They are rough and low, seeming to lean on Mount Guantara. In Chimbalan another spur extends north northwest, which comprises the volcano of Pasto. It rises above the others to a height of 4 700 metres over the sea. Other little mountains run from its side like *radii* to Guantara while on the opposite side the volcano seems to rest on the table land of Pasto. When passing along the western slope of the volcano a multitude of deep openings from the town of Cosma situate on the high plateau that inclines toward the ravines of the Guaranta, can be seen an immense breach and ravine in the volcano through which run dirty streams of water. This must have been caused by the bursting of some interior lake. Such lakes are probably formed by the rains that are caught through the opening of the volcano. The Mount Pasto was formerly known as the Mount de la Galera owing to a phenomenon frequently visible on its summit. This was quite a large coil, having the shape of a galley. The appearance of this cloud was always a sure sign that it would rain in two or three days. The aborigines remained that it never deceived them in this respect. The last eruption of Mount Pasto took place on the 12

The Earthquake in Peru.

DETAILS OF THE TERRIBLE CONVULSION—SHOCKS STILL CONTINUE—PARTICULARS OF LOSSES—THE WINE CROP LOST—ACTION OF THE GOVERNMENT COMMISSIONERS.

LIMA Sept 8 1868

Your correspondent found it impossible to visit the scenes of the recent terrible catastrophe in the south of this republic and consequently he has gathered the following details concerning the horror from private letters of undoubted reliability. From these letters I will premise by stating that the great earthquake is extensively felt all to the west of the Andes range, and that the entire district bordering on the coast has suffered more harrowing scenes than those previously made known. Other earthquakes have taken place in the south of Peru, but none of them have been of such a character as that which has just occurred. The history of the world will find that the same amount of destruction of life and property has never been recorded as at this one. Lost to all ideas have been destroyed, as at Lisbon, and a large number of lives have been lost. But such a shock may be termed almost local, while the movement to which it refers has not only destroyed cities four and five hundred miles apart, but extended its terrible effects to the far east of Chili after having rendered the entire south west coast of Peru nearly an inhabitable and appalling mass in respect more to the interior than a fertile and well populated country.

Coming from the southern limit of Peru the first important settlement met with is Iquique. This city built upon the low shore of the coast at the choicest mouth of the entire rich and extensive nitrate district and considered of immense commercial importance as the third port of the republic. Large foreign mercantile houses are established there, and the bay is always filled with a number of ships loading for Europe and America.

The earthquake was not felt so violently in Iquique as at other points but the shock was sufficiently great to drive the majority of the inhabitants to the sandhills in the vicinity where they saw with horror the formation of an enormous wave in the harbor which precipitated itself with a terrific roar upon the devoted town and in its retrocession carried nearly one half of the buildings with it. Very large stores of nitrate the custom house and a great number of private dwellings were utterly destroyed and although the loss of life and the damage done to the shipping was small yet the wave ruined the apparatus used for condensing water for the use of the inhabitants, and until the arrival of a vessel, two days subsequently, the straits to which these were reduced were truly distressing. The loss of property is estimated at $5 000,000, and save all business houses of good standing in Lima are seriously affected by the disaster. Pisagua, a flourishing port to the south of Iquique, was completely washed away by the sea and more than 400 persons are reported to have perished. To this point the Peruvian man of war *Tumbez* was immediately despatched and by its timely arrival greatly alleviated the sufferings of the people, who, paralyzed by fear had taken shelter in the surrounding sand deserts, and were enduring all manner of terrible privations. Arica the second port of the Republic is as the readers of the *Herald* have been already informed, nothing but a shapeless mass of ruins.

Tacna, distant forty miles from Arica, and connected with that port by a railway suffered to the amount of $2 000 000, but owing to the time elapsing between the rumbling which announced the approach of the earthquake, and the shock itself almost every one had an opportunity to escape and only four lives were lost.

The port of Ilo and the cities of Moquegua and Locumba immediately in the interior, exist but in name, and the amount of property lost cannot yet be estimated. This is the wine growing portion of Peru, and the great deposits and vats were shaken into fragments and the entire crop perfectly ruined. The loss of life will not exceed 200 souls but the damage done to agricultural interests is incalculable.

Islay the port of Arequipa, suffered very slightly being built upon a high bluff and thus escaping the devastation caused in other ports by the inundation but the beautiful city of Arequipa with its suburbs is levelled to the dust. Nothing remains of what was once a picturesque and well built town and the people huddled together in the public squares and gardens outside of the city are so stupified by fear of further calamities as to utterly disregard the necessity of action. The Arequipa at by the destruction of buildings is estimated at $20,000 000, and the number of persons who perished under the falling houses will reach 500. The impossibility of recovering the bodies and the effects of the calamity as yet render this estimate uncertain. From the ruins where are buried the unfortunate victims arises a terrible stench, which it is feared will breed a pestilence, since the sun at this season pours down its heat during the day, and the dews at night produce a miasma which is reputed to be highly dangerous.

Coming still southward we find the ports of Chala and Nazca almost swept away, and the city of Ica about one hundred and fifty miles from Lima, nearly destroyed. This city is situated forty miles inland and was literally shaken to the ground. From this point southward the severity of the earthquake sensibly diminished. The town of Pisco seaport of Ica, was roughly handled and a beautiful iron wharf rendered useless. The Guano Islands immediately opposite Pisco, were moved to their foundations and according to the statement of a person on them at the time, shook like a hammock. The damage to property done at the latter places is very considerable, while, fortunately, the loss of life has been small.

Miscellaneous Items

Ohio claims to have 172 woolen mills within her borders.

Many Indians are employed in gathering the Western hop crop.

The Apprentices' Library in New York contains over 40,000 volumes.

There as much tobacco as last year is promised from Southern Kentucky.

The Oil Creek and Alleghany oil wells turned out 12 235 barrels a day last month.

The annual yield of wine in the Ohio Valley alone now averages over 700 000 gallons.

The Rockbridge Alum Springs, in Virginia, have been sold by auction for $238 000.

In England there are over 700 co operative associations, while Prussia has over 1 500.

Hop stalks are capable of being manufactured into excellent coarse cloth and cordage.

John H Fanly the fastest type-setter in the country, died in Philadelphia, September 21st.

More than five thousand acres of prairie have been broken up this year in one county in Minnesota.

Horace Greeley is contemplating a trip to Europe to collect material for a work on *Political Economy*.

Mr Cunard has decided to replace the English steamers withdrawn from Boston a few months ago.

Mrs Robert Lincoln wore white silk, trimmed with white satin with pearl ornaments, when married.

August Belmont's picture gallery is valued at $500 000, and is one of the best collections in this country.

The Prince of Wales contemplates a visit to the African continent visiting Egypt and the cataracts of the Nile.

An English jury decides that it is not murder for a man to stamp his mistress to death with spiked boots.

A German philologist predicts that in 500 years English will be a universal language. We will wait and see.

Henry Ward Beecher's sermons are to be published weekly, in a neat octavo pamphlet suitable for binding.

Victor Emanuel it is said is willing to abdicate his throne in favor of his son, and spend the rest of his days in hunting.

It is estimated that one of the Long Branch hotels took in this season upwards of a quarter of a million dollars.

M Allegri, a Jew, has been chosen Grand Master of Freemasons in France and M Cremieux of the same faith is his deputy.

Herr Lengel the lion tamer was lately badly bitten and torn by a lion in Madison Indiana, but will probably survive.

John Moore, of Dorset Vt, administered a hickory sapling to his neighbor, Ira Batcheider. Both men are upwards of 70 years of age.

A court in New York State has decided that a clairvoyant doctor can not recover for services as all such doctoring is fraudulent.

PRENTICE AND THE LOUISVILLE JOURNAL.—The Chicago *Republican* says: We learn from the Lexington (Ky.) *Statesman* of the 26th that the, in many respects, illustrious journalistic career of George D. Prentice terminated on the 23d, by his being finally dismissed by the Louisville Journal Company represented by its monied man, Isham Henry. At the age of 63 Mr Prentice is [illegible] the wreck of his former self. He [illegible] been an employee of the company at $30 per week. He seems to have accepted the humiliation as much wrecks. It is not a state of affairs to be forgotten the misfortunes of the [illegible] a parade of their causes and where the [illegible] their victim still [illegible] the [illegible] and career of George D Prentice will stand in painful association the steps at self wrought ruin. It is painful to see him lapse from a position of power on a journal for which he made a national reputation.

By Overland Telegraph.

DISPATCHES TO THE OREGONIAN!

DATES TO OCTOBER 19.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, Oct 19.—The N Y *World's* [illegible] tion for the withdrawal of Seymour has been the all absorbing topic of conversation in this city since Saturday. The direct admission of the anticipated defeat which is implied in the proposition has chilled the democratic heart. Some of them denounce it as a Yankee trick. Others that Belmont has sold the party out to the bondholders interest; but all admit its disastrous effect upon the prospects of the party.

The Union meeting at San Jose on Saturday night was a grand affair. Over 7 000 people were present. It passed off in a most orderly manner. The San Francisco delegation returned to the city yesterday morning.

Saturday evening the wife and infant child of Mr. Sherwood living on Potrero Nevro, fell into a well and both were drowned. The husband, who is crippled to his bed with a broken leg, nearly loses from grief.

A frame building on Polk street, owned by T Ryan, was burned to day. Insured for $1,000.

Dyer and Bush will fight for $1 000 to-morrow, if not interrupted by the authorities. The stakes will be deposited with the authorities. The principals will leave Vallejo street wharf in the morning with the contestants and friends.

A Mr [illegible] was arrested on a charge of embezzlement, and refused to have been committed by him while postmaster.

The Steam Navigation Company have reduced rates between this city and Stockton to $1 00 per ton.

Stocks Market.

Mining stocks are very active, the [illegible]

The Daily Oregonian.

WEDNESDAY MORNING OCTOBER 21 1868

ELECTION TUESDAY NOVEMBER 3 1868

NATIONAL UNION NOMINATIONS

For President

U. S. GRANT,

Of Illinois

For Vice President

SCHUYLER COLFAX,

Of Indiana.

For Presidential Electors:

O JACOBS of Jackson
WILSON BOWIE of Washington
A B MEACHAM of Umatilla.

The Two Parties

One of the most remarkable phases of American politics is the fact that the Republican party is constantly increasing its strength in the rural and interior districts while the Democratic strength is steadily decreasing in the great cities The inspection of this fact that the Republican party contains a larger portion of the intelligent independent and virtuous classes while the Democratic party contains the bulk of the rabble and ruffianism This fact cannot be for one moment doubted Every large city in the Union is a Democratic The greater part of the seventy five thousand majority which that party gives in New York City is made up from a population which is grossly ignorant alien in spirit and sentiment, degraded to the lowest depths to which humanity can descend and at once a reproach a shame and a menace to a civilized country This element is constantly increasing in all the great cities and is almost wholly Democratic it is also at the sole source from which that party increases its strength On the other hand the Republican party has its strength in the country districts, in the villages in the smaller towns and cities, where the people live by honest independent labor, and where there is no class who live by vice and crime It is the glory of the Republican party that it is steadily gaining strength among the thinking virtuous classes, and it should condemn the Democratic party that its only considerable accessions are from a class who are too ignorant and vicious to act from principle and who are fit tools to be led by demagogues and designing men There is something in the fact that the cities are Democratic and the country Republican, for intelligent men to think about

No Time to Lose.

The Union Republican party of the nation, standing on the principles of loyalty freedom, equal rights and a true republican progress invokes the cordial support of all good citizens in its efforts to secure these ends It appeals to American loyalty not to falter in the great cause for which it offered up half a million lives as a holy sacrifice It appeals to the patriotism which, through all the dark hours of the rebellion, fed clothed and cheered the soldiers of the Republic which mitigated the horrors of prisons, alleviated the sufferings of hospitals, bore the dead warriors to honored graves, and holds their memory in an undying remembrance, to be yet faithful, and guard well the liberties which their living and dead heroes have staked all to preserve. Nor are these appeals made in vain. The people respond to them, and declare that the great leader who conducted our armies from victory to victory until the last armed foe was beaten down, shall achieve the final rescue of the nation from the still lingering treason of the conspirators What part is Oregon to have in this most glorious final victory? Republicans! shake off your lethargy, and let Oregon and Maine in November answer to each other across the great belt of loyal States, whose voices shall join in the general acclaim, that peace is secured by the final overthrow of the disunion party of the country!

Intolerance and Proscription

The German colony in Marion county gives the Democratic leaders a great deal of trouble As most of our German American citizens are enlightened enough to be Republicans they are particularly odious to the retrogradists of the Democratic party. So long as citizens of foreign birth will blindly follow that party it professes to be their friend and protector but the moment they choose to exercise their right to think and act for themselves, they are denounced most bitterly Some of the members of our Democratic Legislature declare that they want to root out and destroy the German colony at Aurora perhaps they will send for Fort Pillow Forrest and his Ku Klux Klan to do the work Will citizens of foreign birth observe how proscriptive and intolerant this party is when it cannot command their votes?

With that aptitude for figgers which distinguishes the Democratic press the *Herald* in announcing the election accounts up large Democratic gains' It says "the Radicals haven't been able to reduce the Democratic vote or maintain their own majorities, the Democracy are constantly on the increase and the Radicals are as constantly on the decline" Just so the Radical majority in Vermont has declined from 20 184 in 1867, to 26 965 in 1868 it has declined" in Maine during the same period from 19 614 to 20,404, it has 'declined' in Ohio from 3,983 to over 10 000, it has declined" in Pennsylvania from 1 000 Democratic to over 10 000 Republican The aggregate of these declines foots up an increase of the Republican majorities of 43,000 in a single year A Democratic triumph is only a question of time

The Copperhead party has formally and officially committed itself to the principle of equal taxation of all property for the support of the Government The only question now to be settled is the proper rate to be levied Leading Democrats in Congress have proposed two per cent as the rate of taxation for bonds If this figure will be adopted the farmer will be taxed two dollars per hundred on the cash valuation of land That is land worth $50 per acre will pay a *dollar per acre* of taxes when the Copperheads come into power Some people may like this mode of raising revenue but we suspect that the agricultural class will demur They had better do so at the polls

Very soon after the close of the war the Copperhead press published a charge against Frank Blair, alleging that he and his staff officers during Sherman's march through South Carolina called at the mansion of an aristocratic cavalier in that State, and compelled the lady of the house to prepare a dinner for them after which they helped themselves to all the valuables they could lay their hands on including the silver ware and costly dishes which had been spread before them and decamped Blair was so exasperated by this charge that he brought a libel suit against one newspaper in his State which had printed it, says the Chicago *Tribune*

In October preceding the Presidential election of 1864 The Republican majority in Pennsylvania for Governor was 32 164 The next month Lincoln carried the State by 52 000 We have this and other similar precedents for the opinion that Grant's majority in Pennsylvania will largely exceed that gained by the Republicans in the recent elections

Legislative Memorials to Congress

It is understood that our Democratic Legislature will address several more memorials to the assemblage of Radical scoundrels and perjured traitors at Washington praying for aid for various enterprises in this State The style of the memorials will not differ much from former ones being something like the following. 'To that illegal and unconstitutional body calling itself a Congress of the United States which has oppressed its sovereign brethren with the infamous reconstruction legislation which has attempted to revolutionize the Government by destroying the power of the President and Supreme Court which has set up military satrapies in the Southern States of the Union which has deranged every principle of civil liberty and perjured itself by trampling on the Constitution it is sworn to defend which is oppressing the country with unlawful taxes and stealing the money extorted from the hard earnings of the people which is encouraging official corruption and not only countenancing but unblushingly perpetrating the most infamous crimes which ever disgraced an official body Your memorialists, the incorruptible Democratic legislative assembly of the State of Oregon would represent that an urgent necessity exists for a subsidy of fourteen millions of dollars, etc, etc And further the said legislature assembly hereby instructs George H Williams and Henry W Corbett, the repudiated and condemned senators from this State who have betrayed their constituents and joined the Jacobin mob at the national capital in their infamous assaults on the Constitution to present this memorial to the mad lucifer in mob and labor with untiring zeal to secure favorable action thereon It is fully believed that these memorials, some forty in number and calling for subsidies to the amount of some three hundred millions of dollars will be favorably acted on by the perjured scoundrels in Congress without delay

The *Herald* gives up the contest for President, admits that 'the chances are in favor of the Radical candidate," but says "We are ready now to enter the canvass of 1872 with much more zeal and confidence than we entered the canvass of 1868." If this isn't chilly comfort for a man of advanced years, feeble frame and delicate health' we should like to know what is It is like an attempt to encourage a starving man in a desert to hold out a couple of weeks, and he will reach a land of plenty

The Chicago *Tribune* of October 5th says "The Democrats in the Oregon Legislature have introduced a bill into that body to withdraw its ratification of the Constitutional Amendment, 14th article The Bourbons are not all extinct yet But the ability of the State to recede from its ratification has already been decided by Congress and by the proclamation of the Secretary of State The Oregon Democracy, in their zeal for the restoration of rebel rule, are a little behind the inexorable logic of events"

That cause which the political religionists who assembled at Salem a short time ago voted to send to Horatio Seymour, will be sadly needed by that individual by the time he gets it. We don't know who is to take it to him, but suppose that if a cane bearer (to use an expression once very common in Oregon politics) is wanted, Rev Joseph Smith would be the most senseless and fit person that could be selected He could administer spiritual consolation to Horatio on making the presentation

The New York *World* says, with great frankness that American "bonds might approximate to par abroad, but for a lurking fear that some day the Southern whites, in a vengeful remembrance of what this debt was contracted for, may vote in a solid mass for its destruction" This is perfectly true And it is one of the principal reasons why the American people will never permit the Democratic repudiationists and disunionists to obtain control of the American Government

Says Beriah 'We have lived through Radical rule for eight years, they cannot, and dare not if they would, make it any worse for the next four years" There's Stoicism for you! But we thought that 'Radical tyranny" was 'intolerable' This has been the Democratic talk but it appears that this "tyranny" hasn't been so severe after all We are glad that Beriah isn't too 'affirm' to stand it

The present campaign no longer possesses any interest for Beriah, and he is "organizing for 1872" Hadn't he and Grim'ther Watt better better call a meeting at once for the '72 campaign!

Poor Beriah is 'organizing for the campaign of 1872' How long does the individual of 'feeble frame' expect to live?

STATE ITEMS

The fires in the woods in Jackson county have been quite destructive

The Republicans of Jacksonville fired one hundred guns on Thursday in honor of the splendid victory in the East

Last Wednesday a man named Rook was killed in Jackson county by being crushed beneath a tree which he chopped down

The house of B F Dowell, at Jacksonville, took fire last week and came near being destroyed The fire was extinguished by the exertions of the citizens Loss, $500

We have the best of authority for denying the statement which has been made in certain quarters that the remarks on fossils, made at Salem by Dr Veatch, the geologist, were intended to have reference to Rev Joseph Smith, Grandfather Watt or Beriah Brown

Says the *Democrat* While one of the runaway teams was going down street making a great racket all the members of the House started to the window to ascertain the cause of the noise But Speaker Whittaker's gavel called them to duty and he ordered them all to take their seats which they did

Political Brevities

In a recent Democratic procession in Solo Allegheny county, New York, a big banner in order had No Negro Equality," was carried by a great strapping Irishman who has a negro wife and children So says the Wellsville *Free Press*

The savings banks and life insurance companies will be crippled or ruined by paying the bonds in debased paper says Horatio Seymour and then he steps on a platform, the cardinal plank in which demands that they shall be crippled and ruined, and announces that he approves of it

Henry Stanbery, Johnson's Ex Attorney General, who made a speech a few days ago in Ohio in favor of Seymour and Blair, in the campaign of 1864 said 'When you come to vote, ask what candidate Jefferson Davis and the rebels would wish elected, and vote against that man" That is certainly sound sense, whatever follies Stanbery has since committed

Semmes the quondam pirate and present warm supporter of Seymour and Blair is going to publish a narrative of his cruises in the *Alabama* and *Sumter* The volume will embrace about 700 pages and will be illustrated with pictures of Admiral Semmes destroyed by him The sinking of the *Alabama* by the *Kearsarge* and Semmes reaching shore in an English cutter will be omitted

LUCK —The butler of Lord Brassfield gave up his place because his lordship's wife was always scolding him "Lord!" exclaimed his master, you've little to complain of you may be thankful you are not married to her."

LETTERS FROM THE CAPITAL

SALEM Monday Oct 19 1868

IN THE SENATE

Mr Stout presented a petition from Multnomah county asking for an amendment to the road laws, by which persons may be allowed to pay all road taxes in the district in which they may live. Referred to the Committee on Roads and Highways

NAVIGATION MEMORIAL

Mr Miller from the Committee on Federal Relations reported favorably upon the Senate memorial asking aid of Congress to improve the Columbia river at the Cascades and it was adopted without dissent

BILLS PASSED

The following bills originating in the Senate, were passed The bill to provide for the stay of execution upon judgments obtained before justices of the peace Bill to amend the law regulating the licensing of grocers and peddlers

IMPROVEMENT OF THE WILLAMETTE

The Committee of the Whole had under consideration to day, the bill to appropriate $50,000 for the purpose of assisting the Willamette Falls Lock and Canal Company, to construct locks and a canal around the falls at Oregon City and reported it back to the Senate with a favorable recommendation The bill will therefore be passed

There was little else of particular interest in the Senate the day being devoted mostly to second reading of bills and business in Committee of the Whole

IN THE HOUSE

The Speaker presented a communication from President Rounds inviting the members of the Legislature to visit the Willamet University

THE BILL TO AMEND THE MILITIA LAW

The Senate bill to amend the militia law so as to abolish the office of Adjutant General was referred last week to the Committee on Military Affairs This morning Capt Smith the Chairman of the Committee reported adversely to the bill and the report was laid on the table by a vote of 27 to 15 It is hardly probable that it will be called up again

SALARIES OF JUDGES

Mr Chapman from the Judiciary Committee, reported favorably upon the bill to raise the salary of the Judge of the 5th Judicial District and recommending an amendment raising the salaries of all the Judges to $3 000 a year Messrs Chapman and Gurley supported the amendment Messrs. Minto Cox, Waymire and Burnett opposed The whole subject was finally laid on the table, where it will sleep to know no waking

THE RAILROAD RESOLUTION

The Senate joint resolution, designating the East side company as the one entitled to the U S land grants came up this forenoon The friends of both sides had marshaled all their forces Dr Alexander of Linn who has not been in the House for several days in consequence of a severe hurt he received when he was thrown from his buggy, was brought up into the Secretary's office where he lay upon a sofa nearly the entire forenoon in expectation of a vote being taken This indicated that the East side company did not have sufficient confidence in success to take the chances with a single vote absent The West side members filibustered to postpone a vote and finally succeeded in the House before a vote was taken, though the previous question had been moved but not seconded The matter was to again brought up another indication that neither side is in haste for a final vote Both sides are using all possible means to achieve a victory I think that had the House taken a vote in advance of the Senate there would have been no doubt of a result favorable to the East side But on the vote in the Senate there has been some hard talk about fleas I believe though it is not usual to be noised that such flees had any thing to do with the result The talk however may have had a bad effect in the House upon East side chances

POST ROAD MEMORIAL.

Mr Chapman from the Judiciary Committee reported favorably upon the memorial praying for a post road from Lafayette to Tillamook Bay and the memorial was adopted

SCHOOL TAX

The bill to raise the school tax was passed though it received obstinate opposition from Messrs Wagoner Waite and others The Republicans think all is fair in

WAR

The habit auf which both Houses fell at an early day in the session of referring everything is likely to prove fatal to a great many bills It is rare that a bill has been rejected back without some delay, and nearly every bill as it comes back is accompanied with amendments rendering it necessary to have it engrossed This occasions another delay and the result is that a large part of all the business before the two Houses has been crowded at the incomplete to the last week of the session It will now be impossible for half the pending bills to get to a third reading in each House except by constantly suspending the rules The remaining days of the session will be devoted therefore as strictly to business as the talking propensities of certain members will permit In the House this afternoon several bills were killed and two or three House bills were passed, but no Senate bills reached a third reading

LECTURE ON OUR MINERAL RESOURCES

Professor Condon, geologist delivered a lecture this evening in the Hall of the House on the mineral resources of Oregon He is trying to get a bill through, to appropriate a fund for defraying the expenses of a geological survey of the State There is very little probability however, that a proposition of that kind can succeed

BY TELEGRAPH.

[SPECIAL DISPATCH TO THE OREGONIAN]

Oregon Legislature.

SALEM Oct 20 The Senate bill to create a Board of Pilots for Coos bay was reported back with amendments making the Board elective by the Legislature and to pay all funds arising from fines into the State Treasury The amendment was adopted and the bill passed

A resolution to pay the Chief and Assistant Clerks of each house $5 00 per day extra, was adopted

Stout from Judiciary Committee, reported against the action taken on behalf of the State in relation to Carothers' estate and expressing the opinion that the State will eventually lose The report was not accompanied by a bill or resolution and seems to have been submitted only for the purpose of censuring the Governor

A resolution to adjourn sine die on Friday, was offered and laid on the table

Adams introduced a bill to provide for the collection and publication of information concerning the mineral resources of the State

The following bills were passed

The bill to appropriate funds for the construction of a steamboat canal around Oregon City Falls

Bill to change the manner of making assessments

The matter of difference of the two houses on the chairman of the road bill memorial was referred to a Committee on conference of Messrs Herman, Lane and Reed on the part of the Senate

The Senate spent the afternoon in Committee of the Whole The Committee agreed to a substitute for the bill providing for a Convention to revise the Constitution

In the House, Gray introduced a bill for a mineral survey of the State

Jacks introduced a bill to appropriate $12 000 for the construction of a canal from Tualatin river to Oswego lake

The bill to tax Chinamen passed the House by a vote of 42 to 14

The railroad resolution No 16, was made the special for 7 o clock this evening

A resolution to adjourn sine die was laid on the table

The following bills passed

To authorize the appointment of Road Supervisors in Curry county

To enlarge the corporate limits of Astoria and the Columbia Bar pilot and tug boat bill

SALEM Oct 20 10 10 P M — The House has just concurred in the Senate joint resolution designating the East Side Company as entitled to the land grant by a vote of 28 to 16

Dr Rounds, President of the Willamette University, fell down a stairway this evening and was severely injured

OUR SAN FRANCISCO DISPATCH

The Campaign in California

MARYSVILLE, Cal Oct 20 — A H Dudley addressed a large Union meeting in this city and created more enthusiasm than any previous speaker during the campaign Mr Dudley was cheered not only applauded and his speech will have a telling effect

PETALUMA Oct 20 — A rousing Union meeting is being held to night at Hinstaw's Hall It is being addressed by Hon Geo C Gorham and Rev Dr Cox The Hall is overflowing with many ladies being present Great enthusiasm prevails and the Democrats are discouraged

SAN FRANCISCO Oct 20 —The Dwyer and Rush prize fight took place this afternoon at Quarry Rock three miles below Benicia Dwyer won the fight handily in seven rounds when Rush threw up the sponge. Rush had no chance whatever

VISALIA (Nev Oct 20 —Piper's opera house was jammed to night with ladies and gentlemen to listen to Newton Booth and A A Sargent both of whom made magnificent speeches. They were enthusiastically received The Glee Club of thirty members, also participated

SPALDING'S GLUE is used in every country on the globe

IT IS AS INVARIABLE LAW OF NATURE that every human being shall do those acts which he thinks will secure most to him and that he shall avoid those acts which may occasion a loss to him or the family he is a member of In conformity with that law, it is the duty of every person to purchase of Kohn & Finkel all the goods they may be in need of The fair sex who certainly are always most happy to comply with all things beneficial to themselves and families will not fail to examine the fine and extensive stock of R Ins & Finkel and they will be offered their stock If they decide to be of superior quality and at figures below other houses Men more bold and less calculating than our fair ladies, should be reminded that, Kohn & Finkel's are the leaders of fashion, the lowest in price and no man's or boys' clothing unless they are purchased at Kohn & Finkel's, No. 81 Front street

WILLAMETTE FARMER.—The title of a new paper to be issued by the State Agricultural Society on the 1st of January 1869.—If those committee meet with a simi lar success as the prospectus before us It will be a credit to the State—not only in appearance but in the following terms announced by the Society at the State Fair

That the Society do publish an agricultural paper, under its own control, to be conducted in such manner as may from time to time be approved by the Board of Directors, at the price of $2 00 per annum payable in advance

That a committee of three be appointed by the President from the Board of Directors, whose duty it shall be to secure the editing and publishing of said paper and with power to obtain funds for that purpose from the funds of the Society or loan on the credit of the same, if found necessary

The paper will be issued weekly of about twenty-eight inches size—good white paper—and will be devoted to Agriculture Education Commerce and the Mechanic Arts and to the highest interests of the people generally. Its object will be to elevate and ennoble and aid the honest industry of the entire Pacific Coast but particularly of Oregon and Washington Territory

The Golden State is unsurpassed in all its elements of wealth and prosperity. We have a mild and equable climate we have a fertile soil, yielding large returns to the husbandman and such an exemption from failures of crops here is absolutely unknown. Nature has dealt bountifully with us and the duty devolves upon us to develop the unsurpassed resources of our land. Let every one who can come forward and aid the Agricultural Society of Oregon in this praiseworthy undertaking, and while thus lending a helping hand to the object they will also benefit themselves

APPARATUS.—A curious machine has been invented for generating gas. It is said to be cheap and simple. It consists of a cylindrical vat or tub filled with pumice stone. Over the latter is placed a vessel which consists of a compound of the following ingredients: Sulphuric acid, oil of vitriol, and oil. The inflammable liquor is drawn over the stone until the latter ceases to generate gas, when the surplus liquor is drawn off by means of a faucet at the lower end of the vat. The gas is then passed through a receiver which is placed an air chamber in which it is kept by machinery propelled by a spring like that of a watch. The bellows force air through an aperture into the vat where it comes into contact with the gas and forces it through pipes to the burners. The light produced is steady and brilliant. Those who have seen it say they were told that it far exceeds the gas light in brilliancy. As soon as the gasoline escapes or passes through the pumice stone, the latter is again saturated with the oil and can be used over and over again for any length of time. The safety of this invention for burning gasoline is a very strong argument in favor of its general adoption

—A gentleman in this city had an instrument belonging to the Odd Fellows, in his office, and made some remarks about it. A brother Odd Fellow in the city and not a member of the lodge, by a mistake, he went to the new Methodist Church and hauled off the organ from that place. The officers of the church discovered the supposed stolen property were very still, only a few persons knowing, being let into a knowledge of the fact in a very bold theft. On Tuesday morning of the Methodist Church, thinking to find the organ, called on the gentleman who had taken and discovered the mistake. He returned to his post. The matter was hushed up. No one attaches any blame whatever to the gentleman, who thought he was only adding to his

—Fifteen years ago the great majority of horses brought to that chain known as Indian ponies, of them were over fourteen hands high, and were valued at from $10 to $15, generally the latter sum. The few "American horses" that would exhibit at high figures, and no one would buy. Recently wooed over become a favorite of these animals for the great State of Oregon, and in fact nothing over one exchanges, we have seen in those from San Francisco. The large Oregon horses are offered for sale, this enterprising and enterprise of the people in this department of stock-raising. It is less than five hundred fine horses were sold from Oregon, and sold there the past summer

A good [illegible] has been offering for sale the finest and best [illegible] ever in this city, sold, marine and [illegible] in this city. His stock embraces in the line of optical instruments of every description. Those whose sight is impaired should call on or offer ours, by calling on Mr [illegible] to Front street, one secures such [illegible] their sight and relieves them from [illegible] and failing eyes. These [illegible] are a new thing and are attracting [illegible] Mr F will only remain to [illegible] days more. He will go hence to the [illegible] who desire anything in his line, we [illegible] as a thoroughly practical and [illegible] and worthy gentleman

[illegible]—The "son of an Irish lord," [illegible] furnished by one of the Portland [illegible] ago, has been for some time work [illegible] across the river. The other day he [illegible] had been hauling potatoes while the [illegible] ed in digging, and essaying to give [illegible] was discovered, and became angry [illegible] insinuations upon his fellow work [illegible] he was arrested upon a charge of [illegible] and brought before J C Work, one [illegible] peace in this city. He put on some [illegible] and was very anxious to make a speech [illegible] But all his oratority couldn't save him [illegible] the land of equal rights and he was [illegible] fine of twenty dollars or go to jail [illegible] eighty fallon

—Dr Wythe's lecture last night was [illegible] marked attention by a large and intelligent [illegible] by the course of which the lecture last [illegible] third, progresses, the interest rises to in- [illegible] evidently, is thoroughly conversant [illegible] of which he treats, and he never fails [illegible] listeners by his pleasing manner. All [illegible] the next lecture will be delivered on [illegible] last

[illegible] and beautiful drama drew a good [illegible] Mr. Bates as "Old Poz" sung [illegible] finely "brought down the house." The [illegible] of the company did equally well, and we [illegible] no play rendered by this excellent [illegible] satisfaction to the audience than [illegible] All go and see it repeated this evening [illegible] piece is also on the bill to-night.

Sun Note.—By reference to the dispatches [illegible] it will be seen that a late hour last night, it will be [illegible] of Representatives in an evening [illegible] Senate joint resolution desig- [illegible] Railroad Company as the one entitled [illegible] So ends the railroad war in the [illegible] case it may be carried we know not [illegible] have removed to their new office at [illegible] and Washington streets, where they [illegible] attention to all business entrusted to [illegible] have excellent facilities for making [illegible] estate, and doing everything in the [illegible] The attention of the public is called [illegible] in another column

[illegible] that many tons of freight have [illegible] the wharves of the O S S Co, the P [illegible] Steamers. The greater portion of it [illegible] and cats. Everything indicates [illegible] business as soon as the winter [illegible] sets in.

Parties in from Hillsboro on Monday [illegible] mill raging in the wooded districts [illegible] Plains and the head of the Canyon. [illegible] in several places by fallen timber [illegible] across gulches, ravines and [illegible]

[illegible] Co., of the Portland Bag Factory [illegible] of every facility for making bags [illegible] reduced prices. Those who desire any [illegible] will do well to call and see them [illegible].

[illegible]—Yesterday the contractor [illegible] between North F ont and Fourth com- [illegible] of grading. The planking of Pine [illegible] as far as to Fifth, and the grading [illegible]

[illegible]—The Young Men's Law Association [illegible] elected the following officers for the [illegible] J E Wiley Vice President, [illegible] reer, J B Upton Secretary [illegible]

[illegible]—In this court yesterday a colored [illegible] we did not learn, was arraigned upon a [illegible] but the prosecution seemed to have [illegible] a case against him and he was dis- [illegible]

[illegible]—The County Commissioners [illegible] adjourned until to-day, when they [illegible] of levying the county and State [illegible] fiscal year

[illegible] A B Meacham standard bearer of [illegible] Eastern Oregon favored our office with a [illegible] morning. He is in fine health excellent [illegible] generally

Mr. Aaron Cohn of Linn county, filed [illegible] petition in the above entitled court [illegible]

Last Fashion Story.—Mr. G Frankel, the [illegible] of San Francisco meets real success [illegible] has come to stay a few days longer for the [illegible] supplying those that require assistance to [illegible] with his celebrated Prussian Pebble Spectacles [illegible] and do so that have not called on him [illegible] at once and get themselves one a pair of the [illegible] Mr F calls special attention to his superior [illegible] of Optical Instruments such as Medical Com- [illegible] Microscopes New styles of Opera [illegible] Telescopes and Magnifiers of [illegible] Office with Pat Smith 90 Front street

Mr Fitzgerald has opened a Night [illegible] the schoolhouse (Central) near the Call [illegible] For Reading, Writing Arithmetic [illegible] per month, $2 50 per month For Book [illegible] and Algebra $5 per month School [illegible] and closes at 9:30 P M

BARMAN BROTHERS take pleasure in announcing to the citizens of Portland that they will open to day the second edition of the latest styles of French Beavers of all colors Cassimeres velvet and silk vesting ever brought to this city These desiring to have a fashionable suit made to order should call in Barman Brothers and examine their stock They also call the attention of fallers to the large stock in the store line Together with tailoring trimmings with which they are selling goods at San Francisco prices

WHITE WRAPPERS.—The one thing that purifies his teeth with SOZODONT is a white box and every time he opens it two rows of glistening white ivory testify to its beautifying properties

FROM the Army Hospital the bloody battle field the mansion of the rich and the humble abode of the poor—from the office and the sacred desk from the mountain top distant valley and far flung line of the ocean—from every nook and corner of the civilized world is pouring in the outside of the testimonial gifts to of DRAKE'S PLANTATION BITTERS. The sounds upon thousands of letters like the following can be seen at our office

* * * I have been in the Army Hospital fourteen months speechless and nearly dead. At last I fell they gave me a bottle of Plantation Bitters. Three bottles have made me well again. C H FLAGLE

I. O. O. F.—A Rebecca Degree Meeting will be held by Hassalo Lodge No 15 I O O F on Thursday evening the 20th inst at 7 30 o'clock. Sojourning brethren of that Degree are cordially invited to attend. By order of the N G

Portland Oct 21st 1868

A Beacon of Health.—The good things of this world have each their appointed mission.

It is the mission of HOSTETTER'S STOMACH BITTERS to prevent and relieve a great variety of ailments

For twelve years its success as a *preventive* and a *remedy* has been without check or drawback. It is strong *negative evidence* of this fact, that the efficacy of the article for dyspepsia biliousness, constipation, nervousness, general debility, and intermittent fevers, has never been questioned

As *proof* positive of its infallibility in such cases the statements of public men whose names are familiar as household words have from time to time been given to the world

If its reputation is not founded in facts then truth is a shadow and the utterances of conscientious citizens are of no more value than "divers' oaths"

And what is its reputation? Let the progress of its sales answer the inquiry. Where twenty dozen bottles of Hostetter's Bitters were sold in 1855 *five hundred dozen* are disposed of now

Could public opinion be more significantly expressed than by its unparalleled increase of consumption? It seems impossible

The preparation has been imitated. Where are the imitators? Echo answers, "Where?" To the limbo of things lost on earth they are all either gone or going. Peace be with them

Portland, Oregon

An Acknowledged Fact.—"Truth crushed to earth shall rise again" but so the thousands of worthless compounds that befog the public as specifics

NEWELL'S PULMONARY SYRUP having stood the test of opposition and prejudice, while on trial at the bar of public opinion as we standpoint retained as the greatest known remedy for all affections of the chest and lungs. Use it

Personal.—Redington & Co.'s Florida WATER is far superior to any perfume of the kind ever before the public. Its delicate and enduring fragrance proceeds from the use in its manufacture of the most exquisitely distilled Flower Extracts instead of those crude and common oils so generally used in this and foreign countries in perfume

Fever Ague and other disease incident to our Southern and Western climates at once leaves the system when DR. E COOPER'S UNIVERSAL MAGNETIC BALM is properly used FOR A COLD, it is almost a specific NEURALGIA and RHEUMATIC AFFECTIONS yield to this as all other remedies have failed. In short it is emphatically a FAMILY MEDICINE

G. VENARD,
CHARTRES COFFEE!
Manufactory Established in June, 1851.
STEAM POWER, NOS 525 AND 527 FRONT ST
HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.
The undersigned who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here and in the markets of the Indies, a relatively higher price excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark seek to deceive the public palming upon them their inferior productions for the genuine G VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very best and unwilling testimony of the counterfeiters. New orleans buyers should be forewarned, and placed on their guard against this practice
BEWARE OF COUNTERFEITS.
Each package bears the signature of G VENARD

Two Hundred and Forty Thousand

From the New York Tribune of the 14th inst.

The American people are a custom-loving race, which has resulted in the fixedness of many of its habits. Our manners, customs and costumes are not changed without long and severe struggles, and the most absurd styles have been adopted with reluctance, and only after they had become familiar by long use. The tight lacing of women, the wearing of high hats by men, and the universal use of the cravat, are instances in point. It is doubtful whether the people of this country, whether considered individually or in the mass, are more conservative in their habits than those of any other country, or whether they are more ready to adopt the improvements of the age. But, for evil or for good, they are slow to change.

The Weekly Tribune is a case in point. For more than twenty years it has had a large circulation and a wide influence among the country people, and for several weeks in the year it has had a circulation of over 200,000 copies. The Daily Tribune has a large circulation, and the circulation is increasing, but it is not a hundredth part as great as that of the Weekly. It is true that seven thousand subscribers have been added to the Weekly during the past year, but the number of subscribers has fallen off during the same period, so that the net result is only a gain of seven thousand subscribers. The closing of the Freedmen's Bureau has had a perceptible effect upon the circulation of the Weekly, but we have no doubt that we will commence the year 1869 with at least 240,000 subscribers.

Let us glance at the mechanical part of the business. The Weekly is printed on a medium sheet, 37 by 47 inches, and weighs four pounds a ream. One hundred and twenty-five thousand copies of the weekly alone require 480 tons of paper, or 960,000 sheets each—although it is possible to print the ream, making the total weight of a single issue of 480 pounds or more than 240 tons. The paper, when turned out from the mills, is full half the size of the sheet and is put up in bundles containing two reams, 1,000 sheets in all. The bundles are compressed to almost the solidity of a board, and measure about 7 inches in thickness. Two hundred and forty piled one upon another would make a column 140 feet in hight with 37 by 23", inches in measurement. If each of the 240,000 copies of the *Weekly Tribune* were addressed singly to the person who subscribes for it as it is now required but 10 seconds to write the name of the subscriber, post office and State, it would take one person 67 days of 10 hours each to perform the labor. But to accomplish the work in one day of 10 hours 77 persons would be required. For each issue of it will take 10 persons working every day in the year to write a wrapper for each subscriber. Of course we do not address each paper in individual subscriber though we have sometimes several thousand copies each week to mail with pen in hand but by machinery.

'Boiled Hair — The *Ladies New Jersey* says:

Frizettes, over which chignons are arranged, are too warm and heavy for summer. A plan for dispensing with them and making a fine display of a small quantity of hair is called "boiling." The braid is plaited in numerable tiny braids and put into a pot of boiling water. After it has been boiled three or four hours it is dried by baking in an oven. When the small braids are taken out the hair will be crimped in the style now so fashionable, and the crimp will remain permanently defying all moisture to make it limp. The crimps make the hair stand out so lightly that the frizettes are not needed. It is then loosely plaited in a large three plait to form the chignon and after being wound into shape is held securely by an invisible net. Such chignons weigh only two and a half or three ounces, and may be readily put on without the aid of a hairdresser.

Mr. Z. Chase, Wilson, Portland, Oregon, writes as follows: "I have used your Acid Iron Preparation in my family during the present season, and find it a most excellent remedy for Liver Complaint, Dyspepsia, Nervousness, and Debility. I have also used Magic Oil to a high degree in the latter case, and Dr. Murray's Rheumatism Lumbago Pain and Distressing Liniment."

J. D. English of Howell Prairie, Marion county, Oregon, writes:

"I was taken with a severe attack of Rheumatism in my joints and extremities accompanied with a severe pain in my back, so that I had to use crutches to walk. I tried many remedies in common use, but got little or no relief, until I was induced to try Dr. Murray's Pain Killer. I have been using it for 4 days without cessation. I have no hesitancy in saying that it is a most excellent remedy for Rheumatism, and I have recommended it to others who are afflicted with the disease. I am now on my way to Willamette Falls, to get a bottle of your Iron Preparation, and two dozen of your Pain Killer, as I am sure they are the best medicines I have ever used. I will be without them in a few days, and will write you a letter to your Agent of medicine in Portland, for a fresh supply. J. ENGLISH."

J. W. Murray's office is 8 Fifth Portland. Third street, adjacent to the Yamhill R. R. Bridge. Parties in the country and from the various or surrounding counties can procure board and comfortable accommodations in Portland, for a fresh supply. J. ENGLISH.

BREATHING AND BRACING.—There is no preparation in existence which has such a soothing effect in cases of nervousness or flatulency as

DR. H. STRETTER'S STOMACH BITTERS.

Although the fame of this renowned invigorant rests upon its unrivalled curative powers in the various forms of functional disorders, it is only often in connection with its Thousands of ladies recruit its aid as a purely feminine tonic, fluttering of the heart, sense of faintness, nervous debility and all irregularities and derangements to which as a sex they are subject. It cheers and lightens the depressed mind, tones the nerves as well as strengthens the body, and its use is never followed by any unpleasant reaction. Sold by all Druggists and dealers everywhere.

TO THE ENTERPRISING

Farmers of Oregon!

CASTONS'S X-L-SIOR

BROAD-CAST GRAIN-SOWER.

THIS VALUABLE LABOR-SAVING MACHINE which has already been adopted in nearly every agricultural county in the State of California, is now offered to the farmers of Oregon, and is confidently believed by all who have seen it operated, to be the most perfect and reliable machine for the purpose ever invented.

It has been thoroughly tested in the hands of practical farmers, and has proved itself to be

JUST WHAT IS WANTED.

It is simple, strong, durable, and not liable to get out of order. It is so constructed that the operator can, by the slightest movement of the foot, instantly stop the machine, and prevent the discharge of seed, when passing over ground already sown, or when turning at the end of the field. It is so arranged that the seed can be sown broadcast, or in drills, at the option of the operator, and the quantity to the acre can be regulated with the greatest nicety. It is so light that it can be carried by one man, and is so constructed that it can be used on the roughest ground, and will not get out of order. It is the only machine that will sow timothy seed, and all other grass seeds, perfectly. It will sow from one bushel to twenty bushels per acre, and will sow from one to twenty acres per hour. It will sow wheat, barley, oats, rye, peas, beans, timothy, clover, and all other grass seeds, and will sow them perfectly. It will sow from one bushel to twenty bushels per acre, and will sow from one to twenty acres per hour. It will sow wheat, barley, oats, rye, peas, beans, timothy, clover, and all other grass seeds, and will sow them perfectly.

THE LARGEST SIZE

will sow from one bushel to twenty bushels per acre, and will sow from one to twenty acres per hour. It will sow wheat, barley, oats, rye, peas, beans, timothy, clover, and all other grass seeds, and will sow them perfectly. It will sow from one bushel to twenty bushels per acre, and will sow from one to twenty acres per hour. It will sow wheat, barley, oats, rye, peas, beans, timothy, clover, and all other grass seeds, and will sow them perfectly.

THE SMALLER SIZE

will sow from one bushel to twenty bushels per acre, and will sow from one to twenty acres per hour. It will sow wheat, barley, oats, rye, peas, beans, timothy, clover, and all other grass seeds, and will sow them perfectly. It will sow from one bushel to twenty bushels per acre, and will sow from one to twenty acres per hour. It will sow wheat, barley, oats, rye, peas, beans, timothy, clover, and all other grass seeds, and will sow them perfectly.

Portland Homestead Association

A MEETING OF THE SUBSCRIBERS TO THE Capital Stock of this Association will be held at the office of the Association No. 113 First street, in the city of Portland, on Monday, the 9th day of November next, at 7 o'clock P. M. for the purpose of electing officers for the ensuing year.

Subscribers are requested to call and pay up their installments at the office of the Association previous to the meeting, otherwise they will not be entitled to vote at such meeting. By order

R. J. CHATFIELD, Sec'y pro tem.

Portland, Oct. 8, 1868. 10d3w

DISTRICT COURT OF THE UNITED STATES FOR the District of Oregon.—In the matter of Louis Sell, Bankrupt.—In Bankruptcy.—A warrant in Bankruptcy has issued against the estate of Louis Sell, of the city of Portland, in the county of Multnomah and State of Oregon, who has been adjudicated a bankrupt on his own petition that the payment of debts and delivery and transfer of property belonging to said bankrupt to him or for his use and the transfer of any property by him are forbidden by law. That a meeting of the creditors of said bankrupt to prove their debts and to choose one or more Assignees of his estate will be held before me, at my office in said city of Portland, on the 30th day of October, A. D. 1868, at 10 o'clock A. M.

Dated at Portland, this 8th day of October, A. D. 1868.

R. J. CHATFIELD, Register in Bankruptcy for the District of Oregon.

EXTINGUISHER PORTABLE

SELF-ACTING FIRE ENGINE!

THIS INVENTION HAS FOR ITS OBJECT THE extinguishment of fire, and can be instantaneously put into action from the use of the EXTINGUISHER are of three sizes, adapted to all scales, and its rapid and sure control is of increase owing to the fact that at the time of its commencement (when every moment's delay in checking it is of the utmost importance) no means are ready at hand.

The EXTINGUISHER is the only Engine that fills this requirement.

It is always ready for use, though standing unused for years.

It puts out fire instantly.

It saves the great deluge of water now used for this purpose.

It is as effective in the hands of a Boy as the most experienced Fireman.

It is portable, and can easily handled as a bucket of water.

It possesses within itself the power of a force pump, and is as effective as a Steam Engine.

It is the only known invention that will put out Fires from Kerosene, Tar, Naphtaline, and combustible materials now in common use.

PRICE—No. 1 $60, No. 2 $55, No. 3, $50.

HIRAM SMITH'S

Ophthalmic Panacea!

IS WITHOUT DOUBT THE MOST WONDERFUL Eye Remedy ever discovered. It has never failed in a single case of CHRONIC INFLAMMATION OF GRANULATED LIDS, PINK EYE, and all forms of Sore Eyes. It brought into the most speedy relief cases of Scrofulous Inflammation of the Eyes, which had resisted all other treatment, and in many cases of long standing, where the sight was entirely destroyed. In fact, it is a CURE IN EVERY INSTANCE, WHERE THE EYE IS NOT ENTIRELY DESTROYED, and will RESTORE THE SIGHT, OR REFUND THE MONEY. It has been in use in the practice of the undersigned for FIFTEEN YEARS, and has NINE FIFTEEN Physicians and Druggists in Harrisburg and over FIFTEEN YEARS, which fully sustain all that is claimed for it. Those who are afflicted with Sore Eyes, or any disease of the Eye, are advised to give this remedy a fair trial, as it will not, in any case, injure the eye, but will relieve it from pain in a few days. Those who are afflicted with the distressing scourge of disease of the eye are advised to give this remedy a fair trial on their own responsibility, as we have in possession hundreds of letters from persons who have used it, and in every instance it has given entire satisfaction.

Price, $5 per bottle. Sent by express to any part of the country. Address all orders to

H. SMITH, M. D.,

Harrisburg, Pa.
